ASSIGNMENT 3

Use the Internet, electronic databases and/or the library to find at least three sources (at least one each of *a journal article, conference paper and book chapter*) on ways to make the computer more accessible to learners, who experience barriers related to <u>visual ability, hearing ability and motor skills</u> respectively. Write a report of **no more than 500 words** (**the whole assignment must fit on one page in a Word document**) on your findings from the literature, including referencing using the Harvard method and a complete list of references.

<u>Look at the following as an example</u>:

<u>Introduction</u>

In their *book chapter*, Mentz and Goosen (2022, p. 121) define …

… in the *journal article* (Goosen & Mentz, 2008, p. 54).
